Welcome to the Sale

Welcome to the 7th Ladies in Red Event. Our families continue to value the new friendships, partnerships, and contacts built through previous sales. We look forward to continued opportunities and hearing the success stories from selections made from previous Ladies In Red Events.

The cattle business is a good place to be and cows continue to be good property to own. Without a doubt, the Red Angus breed continues a steady climb in popularity and interest. From the commercial sector to the show ring, Red Angus genetics are in high demand. It is prime time to invest in quality Red Angus genetics.

As you page through the catalog, we hope you agree the offering is as strong as ever. Whether you are looking for a donor prospect, a heifer to compete in the show ring or a female to add to your program; we believe the quality of genetics, matings and cattle presented will exceed your expectations. From the opens to the bred females, these are the kind with the potential to have a positive and lasting impact on a Red Angus program.

As always, our families look forward to seeing you at the Ladies in Red Event. If we can be of assistance in any way, do not hesitate to contact us. Please feel free to come early and join us for cattle viewing and hospitality on Friday. We hope to see you in Lake Benton on November 25th.

Enjoy the cattle,

The Ladies in Red Sale Group

This Detour heifer is out of a first-calf Goldmaster heifer. She more than exceeded our expectations with a 106 weaning ratio. Deep cherry red, bold sprung, top it off with mammoth feet and legs. Best part is, she is cat sound. Breed her to Takeover and make magic happen. 718's grandma, 1005, is a full sister to the Reserve Champion Female in Denver 2009. Her great grandma is 16 and is still in production. They look good and last!

This one is my kind! Soft, square and sound. Very maternal in her kind, yet gives you a stout look from all angles. She started out with a 77 lb birth weight with a ratio of 99 and weaned off at 640 lbs with a 104 ratio. She's passed the test! This is my favorite Cinch heifer we had this year. It's no surprise because 6024 doesn't miss. She had a \$5,500 bull last year going to Travis Barnes in IA. We also have retained four daughters. If you want to show her, great, she'll have a bright future regardless. ***Retaining half embryo interest.***

This February show heifer prospect heifer has been a stand out since day one. The Kashmir cow family has never missed for us and it shows here. Here is a female that is built as good as any, yet has the power and mass to be a great cow prospect. The Durango x Card Shark mating has worked great for us and the quality that 05E brings to the table is unique. To top it off she is puppy dog gentle, great for a first time showman.

This Detour daughter is hard to miss. She is big outlined, cool fronted and has a killer hip and hind two. This cow family has made a big splash here. 739's brother brought \$5500 in the 2017 bull sale, and her maternal sister had a \$8000 bull in 2015 and a \$8000 Shark heifer at the 2016 LIR. Lot 8 will definitely show, but more importantly you are going to have one hella good looking and productive cow when you kick her out!

For those of you that are wanting dive into the Red Angus breed, here's your chance. This heifer has looked the part since day one. There is no guess work here. Her full brother Reform brought \$50,000 in the bull sale selling to 6 Mile Red Angus of Canada and VF Red Angus of Oregon. Also, a maternal brother, Night Train, was our lead off bull in our Denver pen in 2014 and sold to TC Reds in WI and McMurphy Farms in OK. A maternal sister by Firebolt just weaned her first calf and will head to the donor pen next spring. We also have a full brother to Lot 10 that has already turned a lot of heads and will be in the March bull sale. This heifer isn't a one hit wonder. Take her home & she'll do the work for you! Full sib embryos sell as Lot 54.

Not sure where to start on this one. We can talk about her maternal look; how she hits the ground correctly at all four corners, how elegant she is through her neck and shoulder, or how she blows you away in terms of capacity and center dimension. If you haven't guessed, I like this one a lot and so have those who have seen her this summer. She has already seen success in the show ring; winning her class at the National Show this summer, and just recently being named Calf Champion in the AOB division at the American Royal. This is a female you can tie into with confidence and build a program around.

Retaining ½ embryo interest.

I should have my head examined for letting this one leave the place. I was greedy and kept her sister last year, otherwise we wouldn't be having this conversation! Scary thing is this is 416's second calf. There is a bunch of neat things in her pedigree; Dolly, whose first 2 sons won Denver and Savannah who won Ft. Worth, Denver and Louisville as a calf for Solution Genetics. The grandma to Lot 22 is also a full sister to Doc Holliday and Dr. Phil. I'm not going to describe this heifer. You come take a look sale day and tell me what you think. **Retaining one flush at buyer's convenience and seller's expense with a minimum of six embryos.**

These C Bar RJ Reckoning females have far exceeded the expectations we had when we purchased him in the 2015 C-Bar Bull Sale. He adds so much sweep and center dimension, transmits a great foot shape, and does so in a very maternal and attractive appearing package. The first Reckoning daughter to hit the showing was National Calf Champion and a NAJRAE Class Winner; another daughter followed up this year with a National Class win and Calf Champion in the AOB division at the Royal. Ekko has the potential to follow in her sisters' winning ways.

We haven't had much luck having many Transcendence heifer calves, but the ones we do have are flat good. This heifer is a prime example of the quality and look we wanted to get when we bought Transcendence. The stoutness and power this female offers is second to none. Hard to make cattle this stout and sound but still give that feminine look up front. Great cow prospect here!

Mr. Moxley graciously donated embryos to the 2015 NAJRAE Champion Bred and Owned Female, which Sydney was fortunate to win. When Mark said he'd send some out of the Abigrace cow family, I was excited. This heifer does a lot of things right; she's great hipped, long spined and super attractive on the profile. Add in the power of the Abigrace cow family and you've got a heifer that will not only compete, but go on to be a true breeding piece. If ISU was not so proud of their education system, I doubt Sydney would be letting this one go. **Retaining a flush at buyer's convenience and seller's expense.**

Z304 has made a lot of friends over the years on pasture tours. She is the epitome of what a true female is suppose to look like. She has a long, elegant front end and is flat shouldered yet is still round ribbed and super sound when you get her on the move. You are probably asking yourself, "If she is so good, why is he selling her?" My response, "The Ladies In Red is not the place to sell average cattle." If she was average, I'd be selling her on Craig's List. In all seriousness, I have an extremely hard time selling my bred heifers, so instead I'm offering up cows from the heart of our herd. She has a daughter and granddaughter in our herd. At this point, her grandson is on track to be in our 2018 Denver Pen. Also, a son brought \$9,600 to Sutphin Cattle Co. in CO in the 2016 bull sale. MPPA 104.36 *AI'd to 5/25/17 to Reform (3535729). PE: 6/1/17 to 8/10/17 to Red 6 Mile Brando 666 (1873024).*

Lady Rob was the result of one of our initial purchases in the Red Angus breed at the famed Oates Land and Cattle dispersal. After producing our top selling bull several years in a row, Lady Rob 7007 went to the donor pen and has been cornerstone ever since. Lady Rob transmits tremendous udder quality in her daughters and ranks in the top 5% of the breed for Milk. Her balanced EPD profile offers a number of directions you can go in your matings. She has produced several champions and high sellers, including WDZ Covergirl and WDZ Girl Power. Lady Rob is open and ready to flush. We welcome the opportunity to discuss mating options and would be open to splitting flushes on a mutually agreed upon sires.

Guaranteeing minimum of 7 frozen embryos.

We always strive to make some of the most unique females in the breed and we feel that TC Luanna 21D is our best creation yet! She has already been crowned as the National Champion Female in the Jr. and Open show in 2017. We are offering a flush to the bull of your choice and we feel it will be a home run no matter what bull you choose. So if you prefer the National Champion Female, you know what a unique opportunity this is! **Guaranteeing minimum of 6 frozen embryos.**

WDZ Girl Power was purchased by JK Red Angus in North Carolina in the 2015 Ladies In Red Sale. We retained 50% embryo interest and are certainly glad we made that decision. Not only did she have a successful show career as a heifer, but more importantly turned into one of those young cows that you can spend all day in the pasture staring at. The mating to Mulberry is one that presents an opportunity to produce your next show heifer, donor or herd bull.

Offering 3 embryos with the guarantee of 1 pregnancy.

Here are two reverse IVF heifer embryos by WEBR Night Train 324 and out of one of our favorite cows on the place. 80z is one of those females that you wish you had a whole pasture full of. Her high quality look breeds true year after year and with adding Night Train to the mix it's going to turn out great. It's hard to let these embryos go because we know that this mating would be making the Ladies in Red Event in the future. **Offering 2 embryos with the guarantee of 1 pregnancy.**

To say we're excited about this mating would be an understatement. The homework is done, and 8021U and Rolling Deep click! These embryos are full subs to the Reform bull who was purchased by Six Mile Red Angus of Canada and VF Red Angus in OR. Also, a full sister to these eggs sells as Lot 10. We have a full brother to these eggs that will sell in the 2018 bull sale. Boy, this has me wondering why we're putting these eggs up for sale! This Rolling Deep mating wasn't her first success. These eggs would also be maternal sibs to Night Train, the lead off bull in our 2015 champion pen of bulls at NWSS. If you are wanting to make a splash in the Red Angus breed, the guesswork is done. On paper or in person these are real world cattle with a look. **Offering 3 embryos with the guarantee of 1 pregnancy.**

Besides Dolly, 1002's mom has probably made as big an imprint in our program as any. Both revenue and females kept in herd. 1002 is following her footsteps. Just last month she had three daughters by three different sires average \$7800 for Phil Farmer in OH. Also, a granddaughter sold for \$33,500 in the Flash & Function Sale in MT. Lot 21 would be a granddaughter as well. We think this mating to Reform could be the icing on the cake. Power, balance, calving ease and growth, coupled with a killer look.

Offering 3 embryos with the guarantee of 1 pregnancy.

Seventh Annual Art for a Cause

Weaning Day

18x22, Framed & Signed Print

As our seventh annual sale has come around again, so has your opportunity to purchase art by Michelle Weber. This year's donation piece is a classic, black and white piece that captures a glimpse into a day that only comes once a year, weaning day. This timeless piece has been beautifully framed with a rustic frame and tanned leather mat. It will be auctioned off at the beginning of the sale with proceeds going to the North American Jr. Red Angus Event.
