the north side of the road.

## *Online Bidding*

Watch and bid online at [www.DVAuction.com](http://www.DVAuction.com).

# *Welcome to the Sale*

Welcome to the 9th Ladies in Red Event. The vision and planning for this sale began more than a decade ago, but the dedication to quality and excellence has never wavered. The pages of success stories that have developed from the Ladies In Red continue to grow. Nothing could bring more satisfaction to us as breeders, than the success of our customers, we look forward to seeing these success stories continue for many years. The strength of the Red Angus breed continues to be in high demand. While we have seen volatility in the cattle market recently, one thing is certain, quality genetics and quality cattle sort their way to the top and bring a premium.

As you page through the catalog, we hope you agree the offering is as strong as ever. Whether you are looking for a donor prospect, a heifer to compete in the show ring or a female to add to your program; we believe the quality of genetics, matings and cattle presented will exceed your expectations. The cattle selected through this sale have had tremendous success in the show ring, but more importantly have went on to produce profit generating progeny for their new owners. From the opens to the bred females, these are the kind with the potential to have a positive and lasting impact on a Red Angus program.

As always, our families look forward to seeing you at the Ladies in Red Event. If we can be of assistance in any way, do not hesitate to contact us. Please feel free to come early and join us for cattle viewing and hospitality on Friday. We hope to see you in Lake Benton on November 30th.

Enjoy the cattle,

*The Ladies in Red Sale Group*

## WDZ NR JEWEL 749

After a successful show career, including being named Champion Owned Female at the 2018 North American Junior Red Angus Event, WDZ Jewel 749 hasn't quit. She laid down the afternoon of New Years Day to deliver this standout Fusion heifer calf. This female's outline is near flawless being dead level down her top, back into a long level hip. Neat necked and flat shouldered, this one has the design to follow in her mother's footsteps. Presented with Newman Ranch.

## WEBR HVN BUST 23G

This Reform heifer is in a league of her own in terms of power and bone. In fact, she might be the biggest boned heifer we have sold. While being stout featured, she maintains femininity with a long neck and a great Angus head. She has a great foot and awesome heel. She is not for the faint of heart as she's not going to be small, her mother is bigger framed but carries her condition well. Breed this one to a cute calving ease bull and magic might happen. Her grandma's full sister was reserve female in Denver in 2009.

## WEBR BIG SKY 24G

This is another Beartooth out of a first calf heifer. She's built like a tank from the shoulders back yet still sweet and extended in her front third. Her mother is out of our rural route 561 bull. We only had two of these daughters calve this spring, but after seeing what they look like and how they did, your about to see a whole lot more if them. Real-world cattle with look.

## WEBR VENUS 32G

This heifer has been stopping traffic all summer, she just has that "cocky presence". We feel this one has big time potential in the ring. Gorgeous fronted, stout hiped, and a set of feet and legs that would make a cat jealous, her foot and heel are impeccable. She is out of a first calf heifer that checks all the boxes. She earned a 101 mppa first time out, and caught AI again for the second time. Lot 4's grandmother, 736T, is a full sister to Doc Holiday. She just weaned a Reform bull calf that will make you sit up and pay attention! The homework is done. If our kids were showing this one would be in a different pen! A maternal sister to lot 4's mother sells as lot 39.

WDZCF JEWEL 2010

The Jewel cow family has been good to us and our customers and this female will be no exception. Extremely bold in her rib design, agile in her movement, and attractive in design; she is built to compete. She possesses a sweet disposition and would be very suitable for a younger junior. Her dam is ideal in her design; moderate made, level uddered and the easy fleshing kind. This one will show and go on to be the front pasture kind.

## WDZ DESTINY 931

We like the shape and bone work in this prospect, big hipped and wide based while maintaining a cool look. Stemming from our Lady Rob cow line, this female's dam is a full sib to WDZ Girl Power. Lady Rob was a cornerstone of our program and her daughters are standouts regardless of the mating. There is no questioning the power of the genetics in this female. Buy her to show her, buy her to be a leading female in your herd; either way you won't be disappointed.

**WEBR LANA 765**

OLC LANA S227

Whenever I needed a pick me up this summer, I went and checked on this 102g. It's cattle like this that remind me why I truly love what we do. She is out of a first calf heifer, "No Creep" and she had a weaning ratio of 110. The best part, her mom stuck back AI bred! Her grandma is coming up on 14 years old and is still doing her job, and we have four of her daughters in production. If I didn't, there is no way we'd be parting with this one. Show this one if you want, but I'd be figuring out how you want to flush her because that's where her mom is headed next spring. This one has a big future both in and out of the show ring.

## WEBR LAKOTA 104G

104g is sired by our black-red carrier bull "Mel 552". She is as honest as the day is long. Elegant and built to last. We lost her mother a month before weaning, so she's a little behind. But don't let that stop you because she has long term quality.

**MEADO-WEST TC TUCKERS GIRL**  
MEADO-WEST MORNINGGLORY 640S

This lady is a full sister to WDZ Dari 626 (aka Sonny) who was the 2016 National Calf Champion Female. She has the same sweep and shape to her middle as her sister. Their mom has produced numerous frontend type females and this one is certainly that. Sharp fronted, good hipped, and soft built, we believe this one will be very competitive in the ring and profitable in the pasture.

PZC LADY ROB 7007

## WDZ WIA **GIRL POWER 9132**

To say this one has us excited would be an understatement. The bottom side of the pedigree contains rock solid maternal genetics and a young donor dam that is quickly proving her need to be in the donor pen after a very successful show career. Mulberry progeny are no strangers to the winner's circle as well as being top producers. Phenotypically this dark red lady is so good structurally, combines rib shape with extra length and extension and moves like a cat. As I envision what one should look like at this stage to be a tremendous bred next summer and fall, this one hits it spot on. **Retaining a flush at buyer's convenience and seller's expense.**

It's hard not to love this heifer. We sold full-sib eggs to start the sale last year and I'm glad we put some in as well. Long as a well rope, sound as a cat, and pretty hard to put a hole in. Her sister won champion female in Louisville in 2016, and another sister has a daughter that sells as lot 100g. We flushed 715 last summer and fall bred her. She has a three-week-old bull calf that might be the best bull prospect at this age that we have ever had. I'll keep you posted! PS: Beginning showman take notice! I should be keeping her to have mine show her.

## TC INGRID 64G

This one has always been our favorite because we believe she has some much future ahead of her. She is so good in her front end quality, yet transitions into a massive, maternal rib shape and has the power and athleticism to handle the longevity of being a great one. Her build resembles of the 2 time National Champion of DePorters, it's uncanny. As an added bonus, she is out of a full sister to the Peekaboo cow that we have all heard so much about. **Retaining 1/2 embryo interest.**

### ZEHNDER

This moderate made Reckoning daughter is sound structured, good footed and bold centered. We are excited about the WEBR American Made calves we have coming this spring, we feel they will be the right kind and complement the Reckoning daughters. *Bred to WEBR American Made 837 (Reg: 3962061) on 5/12/19*

# 42

### WEBER

880's mother was our pick of the Leddy Red Angus dispersal sale; she is one impressive beast to say the least. She weaned off a really nice Maxed Out heifer this fall. Lot 43 ties it all together, not only does she have body, extension and, and look but she's also big boned and good footed! *Exposed to Calvo Wide Range 155E (Reg #3893751) and Collier Brilliance R500 (Reg: 3861133). Due 4/7/20. We will pay for the DNA test!*

This female has already proven to be a great donor for us and now it's your opportunity to make her yours. She stems from a proven cow family and most recently produced the 2019 Iowa State Fair Champion female in the open show. This female has consistently produced some of our highest selling females in past Ladies in Red events. *She sells AI'd to 9 Mile One of a Kind (Reg: 355174) on 4/26/19 and then pasture exposed to BHR Durango 1158 (Reg: 1454296) from 5/30/19 to 9/10/19.*

# *The Ninth Annual Art for a Cause*

*The Pen Rider*

Our ninth annual "Art for a Cause" donation is a stunner. "The Pen Rider" is one of Michelle's latest prints and turns an average workday into a scene of beauty. Paired with a rust & espresso brown frame this piece will make a perfect feature in any home or office. This timeless piece will be auctioned off at the beginning of the sale with proceeds going to the North American Jr. Red Angus Event.

## WDZ GIRL POWER 5028 FLUSH

WDZ Girl Power is the kind we strive to produce. Big bodied, sound structured, easy fleshing, good uddered and do it in an attractive package and she is exactly that. She was the 2016 NAJRAE Champion Bred and Owned Female, Supreme Champion Female at the 2016 MN Beef Expo and came back as a pair where she was again named the Champion Bred and Owned Female at the 2017 NAJRAE in Stillwater. All the banners are cool, but more importantly she is producing outstanding progeny. One only needs to study her daughter, Lot 24, to understand the unlimited potential in this female. We are fortunate to own her with JK Red Angus in North Carolina, where she is currently located and available to flush either conventional or IVF this winter.

## BJF LANA'S EQUAL 8021U FLUSH

8021u is one of those cows that will get buried right next to dolly and 237. As I write this foot note it really hits home what this cow has done for us. Progeny include: **Bull-\$51,000, Heifer-\$27,100, Bull-\$20,000, Bull-\$10,500, Heifer-\$10,000, Bull-\$10,000, Heifer-\$10,000, Bull-\$9,500.** Four of these calves she raised, which for me, is the most exciting part. This year she has a Rolling Deep bull who is walking in Reforms footsteps and 2 heifers, which aren't for sale! We don't do much flushing and she's not getting any younger. We feel by getting more calves out of her will only help us in terms of marketing. I'm interested to see how you want her flushed.

## KING OF THE COWBOYS X NEW MOON Y715 EMBRYOS

715 is a cow that we have a hard time finding fault in. Long & extended, deep great uddered with a set of wheels built to last. Her daughter by WEBR Up North won the NAILE in 2015. One of our top first calf heifers this year is another daughter whose daughter sells as lot 18. We flushed 715 last summer and fall bred her, she has a three-week old bull calf that might be the best bull prospect at this age that we have ever had. I'll keep you posted! They say proof is in the pudding, you can be the judge! The flush mate sister to these eggs sells as lot 29. **Offering 3 Conventional Embryos with a guarantee of one pregnancy when implanted by a certified technician.**

## FIREBOLT X EXPECTATION PREGNANCY

What an opportunity here! We're selling a pregnant recip carrying a full sister to the 2019 Supreme Champion female at the Black Hills Stock Show. For those of you who have never been to this show and sale, it's the best of the best, we were honored to be chosen Champion over all breeds. As for this pregnancy, her sister was as close to "ideal" as I need them. Hindsight is 20/20 but looking back we should have showed her more! We've had a ton of success with our Firebolt calves. They add dimension, soundness and look to our operation and they could add it to yours too. Why buy the eggs when the work is done. **Implant date June 25. Due 3-25-2020. Sexed heifer pregnancy**
